EDUCATION

Cornell University

Ithaca, NY

B.S. Computer Science

Aug 2023 – May 2027

- 4.1 GPA. Machine Learning, Operating Systems (+ Practicum), Computer Systems Organization, Analysis of Algorithms, Data Structures, Functional Programming, Discrete Math, Probability, Operations Research
- Involvements: Hack4Impact Project Team (Software, Business + Product), Women in Computing at Cornell (Vice President), Grace Hopper Celebration Scholarship Recipient, Tau Beta Pi Engineering Honor Society

WORK EXPERIENCE

Google Associate Software Developer Intern | *May 2025 – Aug 2025*

- **Core ML Infra:** Python pipeline helping Google developer and legal teams understand why Gemini prompts are flagged for copyright risks. Streamlined complex multi-step workflow into a single command automating inference, copyright checks, and risk explanation with greater flexibility in I/O format and parameters
- **Google Mobile Services Core:** Go-based server feature recommending developers to CC on mobile crashes from fleet of 3B+ devices; identified culprit projects 85% more accurately. Used LLM APIs, RPCs, concurrency

Google STEP Intern | *May 2024 – Aug 2024*

- Spearheaded migration of trust signal pipeline for 18.5M merchants on Google Shopping ahead of platform deprecation; replaced obsolete logic and transitioned system from C++ to Java
- Developed second pipeline to enhance abuse verification process for high-revenue merchants

Cornell Data Structures Workshop Course Facilitator | *Jan 2024 – May 2024*

- Designed and taught weekly 2 hour workshop course with lectures, worksheets, and individualized guidance

PROJECTS

Math Modeling Competition Projects | *Python, PyTorch*

- Multilayer perceptron to predict an individual's preference in remote or onsite work with 0.08 MSE, multilayer perceptron to predict domestic flight delay, simulation for carbon footprint reduction from e-bikes
- **Awards:** Mathworks Math Modeling Challenge Honorable Mention, Modeling the Future Competition Semifinalist, Mathworks Math Modeling Challenge Technical Computing Honorable Mention

Cornell Hack4Impact Software Projects | *React, TS, CSS, MongoDB, Firebase*

- Ithaca Community Recovery: Built admin dashboard for addiction recovery orgs totaling 30K+ annual members; resolved critical bugs spanning frontend, backend, and API routes and presented at Cornell CS showcase
- OKB Hope Foundation: Developed and shipped telehealth booking website for Ghanaian psychiatrists and patients; created psychiatrist verification and recommendation logic

LEADERSHIP

Vice President (Academic Team), Women in Computing at Cornell | *Dec 2023 – Dec 2025*

- Led 6 directors in organizing faculty, career development, and underclassmen outreach events open to 2K+ club members. Former Mentorship Director, Faculty Relations Director.
- Organized mentorship programs reaching 150+ students, planned 3x/week student-faculty luncheons with 60+ participants, and presented student insights to CS department chair and faculty board

Software Developer + Business & Product, Hack4Impact | *Aug 2024 – May 2025, Feb 2026 – Present*

- **Software:** Built and shipped production software for Ithaca Community Recovery and OKB Hope Foundation.
- **Business & Product:** Project research and sourcing, defined new features for scaling product reach, and drove partnerships, fundraising, publications

SKILLS

Programming Languages: Python, Go, C/C++, Java, SQL, Assembly, OCaml, R, TypeScript

Soft Skills: Collaboration, Leadership, Cross-Functional Communication, Public Speaking, Technical Writing
